JOTUN SUPER DURABLE

DESIGN TO LAST

FOR ARCHITECTURAL POWDER COATINGS

STRONG AND STUNNING

When you're designing a building, you don't just imagine how it will look on day one. You envision it standing proud for generations. Architectural design is about durability as well as beauty, because it's not enough to look beautiful when you cut the ribbon. That beauty has to last.

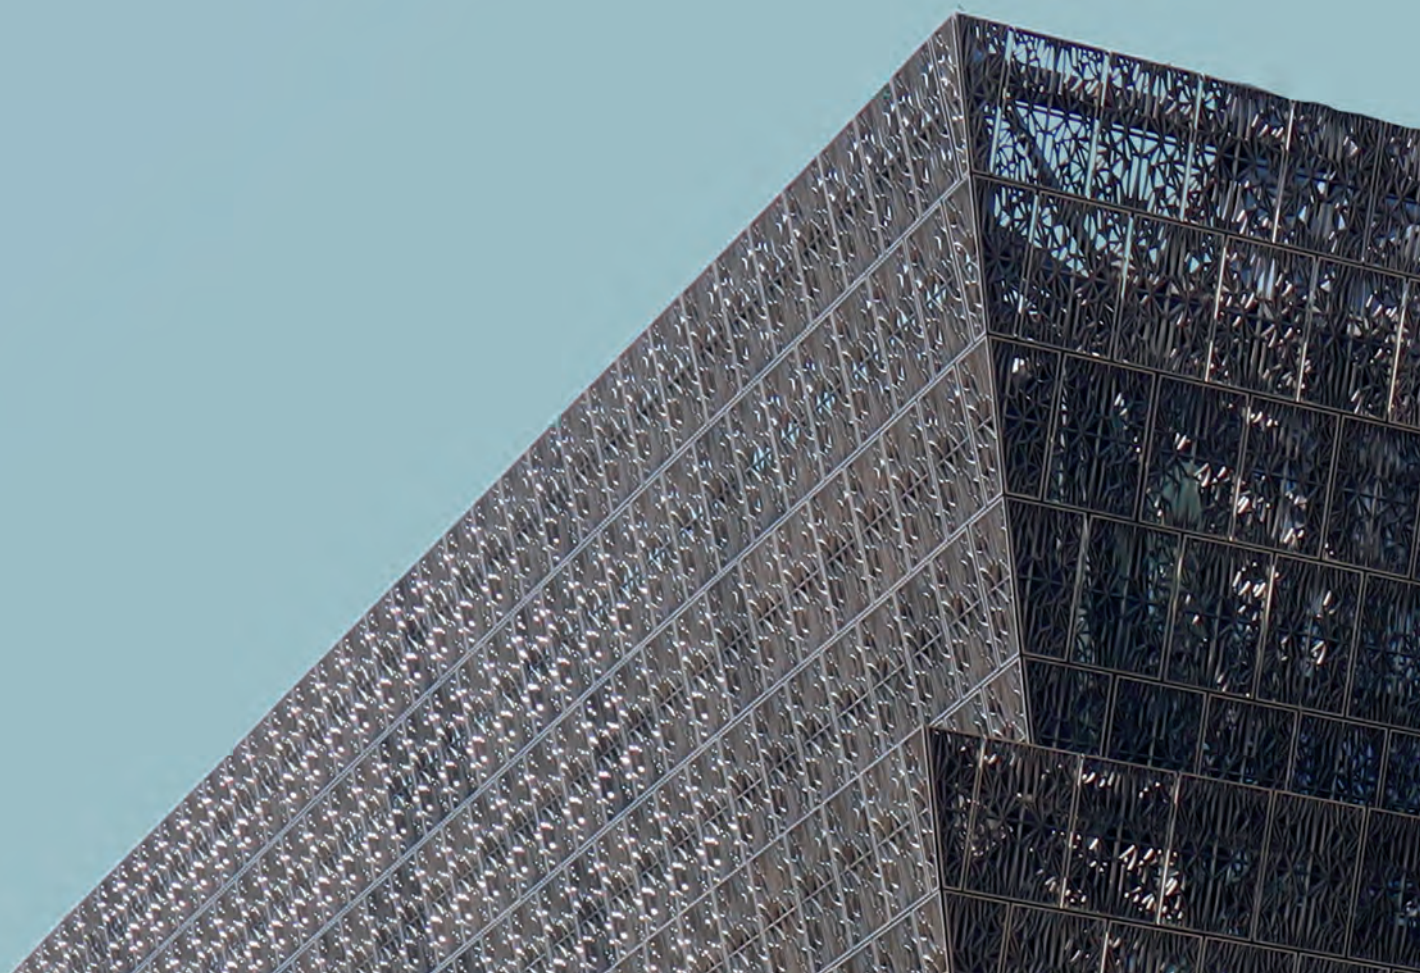

Jotun Super Durable is our answer to that need. Not only does it come in a stunning array of colours, finishes and effects, but it also promises powerful weather protection that ensures your building will become a landmark, and your design a legacy.

Jotun Super Durable resists the harshest weather conditions, from wide temperature fluctuations and high humidity to rough sand abrasion, acidic rain and more. It is certified according to Qualicoat Class 2 and GSB Master requirements, and has weathering performance in line with AAMA 2604.

It is truly designed to last and comes backed by the outstanding technical support of Jotun as well as our 25-year Product Performance Guarantee* when used on aluminium following Jotun Powder Coatings guidelines.

FREEDOM OF DESIGN

Our Jotun Super Durable line includes a number of tailored collections that offer exceptional benefits – both aesthetic and functional. We've engineered each solution to give you greater freedom of design and to not have to choose between bringing your design vision to life and protecting it for years to come.

The Cool Shades Collection - Coatings that reduce interior temperatures.

The Sahara Collection - A kaleidoscope of colours in a unique textured finish.

The Aurora Collection - Shimmering metallic effects with luxurious finesse.

The Woodspiration Collection - The impeccable look of real wood.

For more information about a particular collection, visit Jotun.com
or contact your local sales representative.

INCREASE YOUR LEED® POINTS

While representing a small fraction of your building's costs, the coatings you choose play a significant role in boosting rating points.

Jotun Super Durable is one of our Green Building Solutions* and has been independently tested for compliance with LEED® and BREEAM standards. Additionally, we have one of the most extensive lists in the coatings industry of product-specific, third-party-certified (Type III) EPDs, which are the most valuable for earning green building points.

Jotun Super Durable releases no harmful VOCs. It provides enhanced flow, reduced waste and improved mileage — all of which enable you to coat more and spend less.

*Selected products from the range comply with GBS standards. Contact your local representative for more information and a full product list.

SUPERIOR PERFORMANCE

DESCRIPTION	NORM	JOTUN SUPER DURABLE
Impact resistance	EN ISO 6272/ ASTM D2794	Passes 2.5 Nm without detachment after tape pull test.
Cupping test	EN ISO 1520	Passes 2 mm indentation without cracking. Passes 5 mm indentation without detachment after tape pull test.
Flexibility	EN ISO 1519	Passes 12 mm cylindrical mandrel bend test without cracking. Passes 5 mm cylindrical mandrel bend test without detachment after tape pull test.
Acetic acid salt spray resistance	ISO 9227	Maximum 16 mm ² infiltration over a scratch length of 10 cm after 1,000 hours.
Humidity resistance	EN ISO 6270-2	No infiltration exceeding 1 mm on both sides of the scratch after 3,000 hours.
Accelerated weathering	ISO 16474-3	Cycle: 4 hours at 50°C UV and 4 hours at 40°C condensation. No chalking, excellent gloss retention and colour stability after 600 hours testing.
Natural weathering test	ISO 2810 (South Florida, 27 °N)	No chalking, excellent gloss retention and colour stability after 36 months exposure (angle of 5° to South).
Flame spread index	ASTM E84	Class 1 or A
Smoke development index	ASTM E84	Class 1 or A
