

A photograph of a large industrial facility, likely a refinery or chemical plant, at night. The scene is dominated by several tall, cylindrical distillation columns and a complex network of pipes, walkways, and structural steel. Numerous bright lights are visible throughout the facility, illuminating the structures against a dark blue night sky. The overall atmosphere is industrial and high-tech.

M2

THE EXPERTS
FOR WET PAINTS,
POWDERCOATS AND
COATINGS

INDUSTRY VARNISHES

Perfectly matched to the requirements of durability and environmental protection.

CORROSION PROTECTION VARNISHES

Our customised solutions offer not only protection, but also significant added value for industrial companies.

POWDER COATINGS

As an authorised Jotun partner, we offer certified, sustainable powder coatings that meet the highest industry-specific requirements.

WOOD VARNISHES

First-class wood protection solutions - specially developed for professional users in the woodworking industry.

YACHT AND SHIP VARNISHES

Long-lasting protection and aesthetic finishing for ships and yachts under extreme conditions.

COLOR MIXING SERVICE

With state-of-the-art technology we offer an efficient mobile express service for fast, precise and environmentally friendly colour matching.

EXPRESS DELIVERY SERVICE

Highly available, digitised logistics solutions with our own warehouse, express delivery service and international freight forwarding partner.

M2 - AS INDIVIDUAL AS YOUR REQUIREMENTS

Welcome to M2, your expert in professional solutions for wet coating systems, powder coatings and surface finishes in the B2B sector.

Since 2007, we have been a key specialist and partner in the world of industrial coatings and a part of the renowned Heine Group.

Our focus is on innovation and quality, offering tailored solutions to meet our customers' individual requirements.

From specialised surface finishes and premium powder coatings to additives for industrial wet paints, we use cutting-edge processes and patented technologies, such as our 'Cleasy process', which sets new standards for hydrophobic surfaces.

We ensure the shortest delivery times thanks to our highly available M2 warehouse and logistics solutions.

INDUSTRIAL COATINGS- CUSTOMISED

Efficiency, durability and environmental protection are industrial environment. Discover the industrial coatings from M2 that fulfil these demanding requirements.

Broad spectrum

Our coatings can be used on a wide range of substrates, including Unalloyed steel, aluminium, GRP, stainless steel, coated surfaces, concrete and wood.

Environmental protection

Use of environmentally friendly technologies and materials that meet international standards.

Customised solutions

Development of customised coating systems for specific industrial applications for maximum efficiency and economy.

Standards

Quality and economic efficiency are in the foreground, as well as compliance with international standards.

VARIOUS APPLICATION AREAS & STRONG PARTNERSHIPS

Partnership with the leading manufacturers

Our partnership with internationally renowned manufacturers such as PPG-Selemix, Akzo, Jotun and Mipa enables us to offer customised paint systems with specific properties, that fulfil every customer requirement.

Industrial coatings Applications

Typical areas are e.g. commercial vehicles, machinery and plant engineering, decorative paints such as for garage doors and facades, and paints for the defence industry according to approval TL8010.

Complementary products

Optimally matched to our coating systems and the respective substrates we offer suitable cleaning, thinning and pre-treatment solutions.

Professional Coating Systems

INNOVATIVE CORROSION PROTECTION SOLUTIONS

M2 offers customised system structures and individual solutions in the field of corrosion protection. Our customised mixtures and high-tech coatings create significant added value for industrial companies and professional service providers.

M2 has an in-depth understanding of the various influencing factors that lead to corrosion. Through many years of experience and close co-operation with renowned partners, we develop strategies and systems that precisely tailored to these challenges.

Our system solutions fulfil the the highest corrosion protection requirements, to DIN EN ISO 12944 and NORSOK M-501.

They therefore withstand extremely corrosive environmental conditions and offer optimum protection, e.g. for internal and external tank coatings, steel structures, power stations, refineries, drilling platforms and mining equipment.

At M2, we work together with our customers on innovative and sustainable solutions for long-term protection.

Our own FROSIO-certified Level III inspectors. Advice, expertise & Safety for your corrosion protection.

“
Our high-tech coatings extend the service life of components and offer precise protection.

JOTUN POWDER COATINGS FROM EXCLUSIVE PARTNER M2

Experience maximum durability and aesthetics for the most demanding surface requirements.

Jotun powder coatings are the ideal solution for the construction industry and other high-performance applications. With a focus on durability, colour stability and weather resistance, they provide the highest level of protection and aesthetics.

As an authorised Jotun partner, M2 supplies powder coatings that meet the highest quality standards and offer versatile design possibilities.

WIDE RANGE OF COLOURS

From fine texture to high gloss, from RAL to NCS – Jotun powder coatings offer a broad spectrum of colours, gloss levels and textures. Special effects such as metallic finishes are also available, allowing for maximum design flexibility.

LONG-LASTING PROTECTION

Jotun powder coatings stand out due to their exceptional resistance to UV radiation, corrosion and extreme weather conditions. Certifications such as Qualicoat and GSB (Class 1 and 2), as well as AAMA 2603 and 2604, guarantee their performance.

ENVIRONMENTALLY FRIENDLY

Our powder coatings are TGIC- and lead-free, do not release harmful VOCs and contribute to sustainable construction projects. They feature Environmental Product Declarations (EPD) and support green building standards such as LEED and BREEAM.

EFFICIENT PROCESSING

The innovative composition ensures a uniform surface and enables efficient application.

VERSATILE WOOD PRESERVATIVE VARNISHES

M2 offers a wide range of wood preservative paints for exterior and interior use.

In the field of professional wood protection M2 relies on the extensive range of the renowned manufacturer Jotun. These wood preservative lacquers and varnishes are specially tailored to the diverse needs of companies that carry out wood preservation work. These include companies that Manufacture and protect wood products and trading companies that offer professional wood protection products.

With a focus on innovative and sustainable solutions for exterior and interior applications Jotun sets standards in the wood preservation.

Each product category in the M2 portfolio is carefully developed to meet the specific requirements of professionals in the protection and finishing of wood.

VERSATILITY

M2 offers a wide range of wood preservative paints for interior and exterior areas. These products not only protect wood, but also emphasise its natural beauty.

AREAS OF APPLICATION

Our products are suitable for various projects, from the initial coating to wood surface renovation, e.g. for alpine huts, terraces, half-timbered houses and much more.

JOINT DEVELOPMENT

In close cooperation with specialists the wood industry, we develop customized solutions that are precisely tailored to their needs.

WOOD CLEANING

Our specialised wood cleaning products prepare surfaces optimally for further treatments by effectively removing dirt and thoroughly and ensuring thorough cleaning.

“

Our coatings set standards for innovation, sustainability and quality. ”

HIGH PERFORMANCE YACHT AND SHIP VARNISHES

First-class yacht and marine paints from M2, specially developed for use in the maritime industry. Our products, part of the renowned Jotun portfolio, offer long-lasting protection and aesthetic

finish for ships and yachts under extreme conditions. From topcoats to antifouling solutions - M2 has the solution for your requirements.

LONG-LASTING PROTECTION

Durable protection against salt water, UV radiation and mechanical mechanical stress.

UNDERWATER AREA

Our antifouling solutions and anti-fouling products provide unrivalled protection against marine organisms such as algae and mussels.

WOOD VARNISH AND SUPPLEMENTARY PRODUCTS

Our clear wood varnishes offer additional protection for wooden elements on yachts and ships. Supplementary products support application and maintenance for highest quality and longevity.

VERSATILE APPLICATION AREAS

Perfectly suitable for various surface materials and applications in the maritime sector.

ABOVE WATER

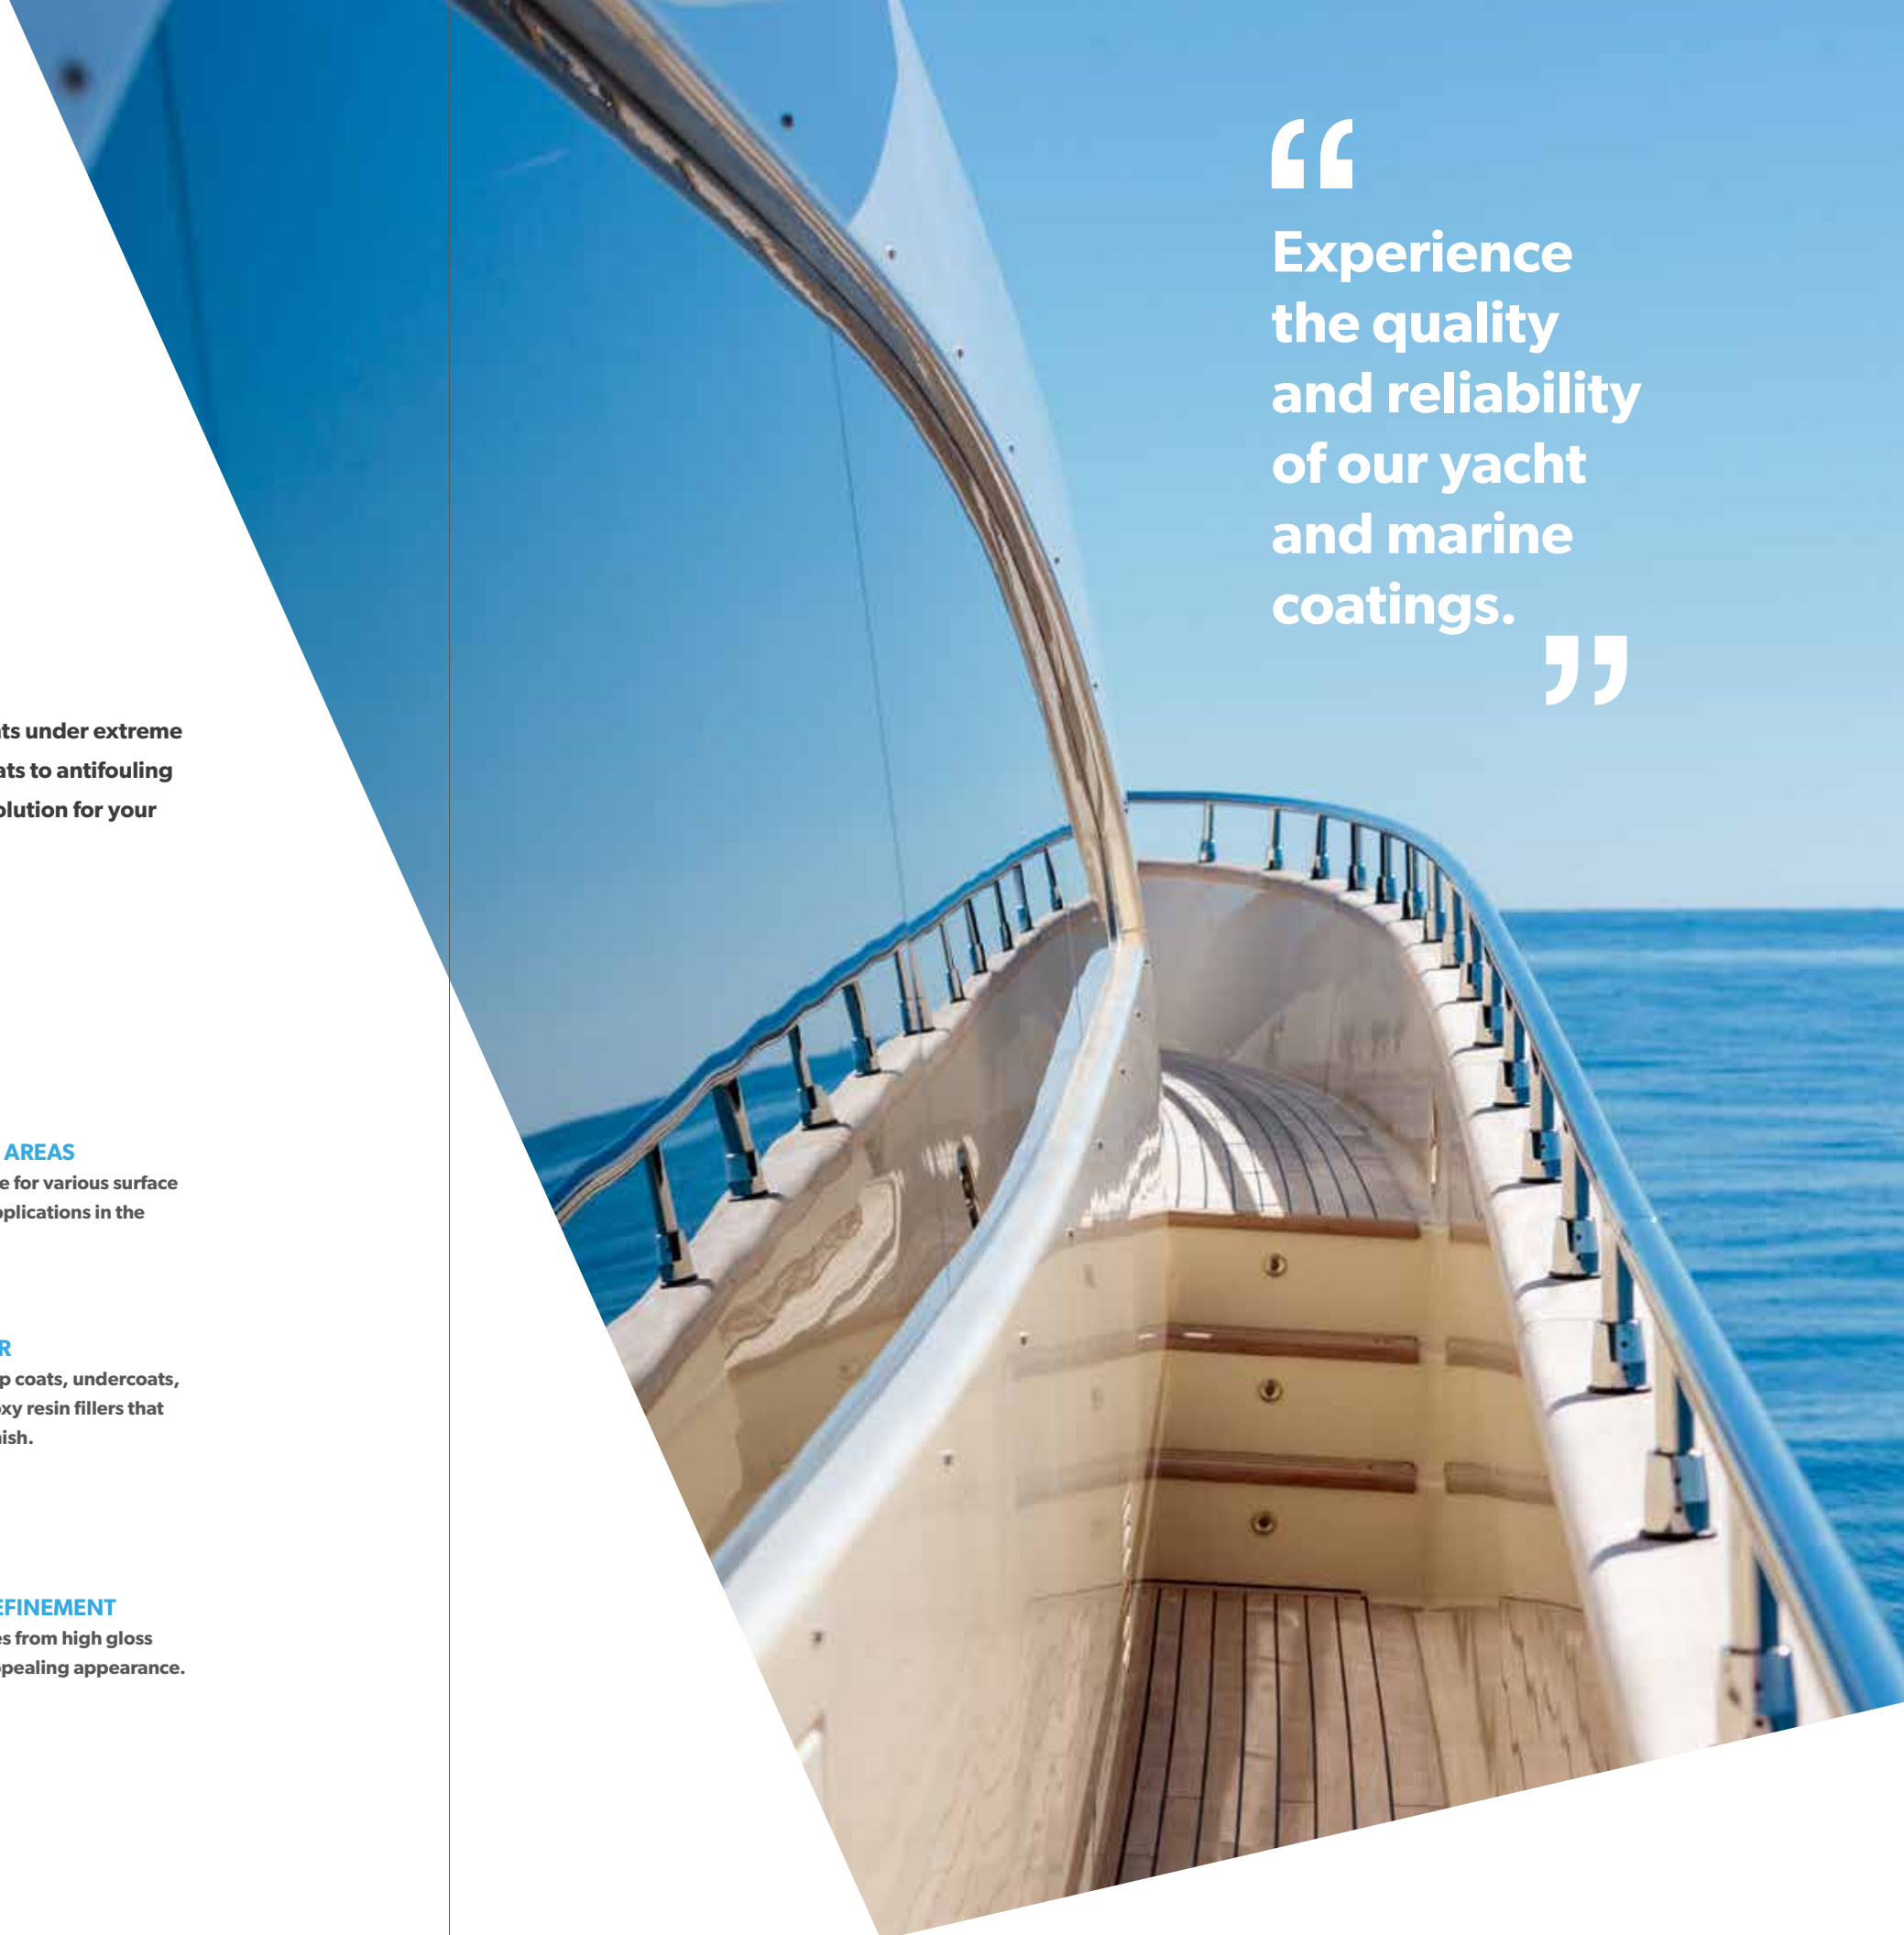

Here we offer top coats, undercoats, primers and epoxy resin fillers that and aesthetic finish.

AESTHETIC REFINEMENT

Choice of finishes from high gloss to matt for an appealing appearance.

and marine
coatings.”

COLOUR MIXING SERVICE

HIGHLY PRECISE AND ENVIRONMENTALLY FRIENDLY

Discover the pioneering colour mixing service from M2, specially designed to meet the demanding needs of professionals in the wet paint and wood preservative paint industry. Our experts utilise the latest technologies and offer an efficient mobile express service to ensure fast, precise and

environmentally friendly customisation to your individual colour requirements.

With our on-site service and fast delivery options, M2 supports your project with well thought-out and future-orientated solutions.

PRECISE COLOUR RECEPTION

Our experts formulate your colour shades precisely to ensure that the final colour mixture meets your requirements and expectations. This enables a seamless integration into existing projects and applications.

PROVISION ON SITE

If required, M2 can install your own colour mixing system on site, which minimises time losses and your projects can be realised even faster.

ENVIRONMENTALLY FRIENDLY AND COST-EFFICIENT SOLUTIONS

We attach great importance to environmental protection and economic efficiency. By the provision of small delivery quantities - just as much as necessary - we reduce waste, protect the environment and help you to reduce costs.

BROAD SPECTRUM OF COATING SOLUTIONS

From comprehensive surface protection to innovative coatings with self-cleaning effect - M2 offers you a wide range of solutions - also with VOC-compliant product labelling.

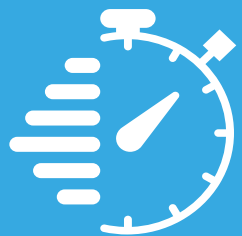

EXPRESS DELIVERY SERVICE – M2 WAREHOUSE & LOGISTICS

Our warehouse and logistics solutions are as individual as your requirements. With state-of-the-art technologies and a strong network, we guarantee availability, flexibility and reliability.

Optimize your supply chain with us, efficiently accelerate your processes, and strengthen your competitiveness.

Your vision in colour – precisely realised with M2.

Upon request, we deliver your order in our express vehicle or with our freight forwarding partners – just in time.

LARGE WAREHOUSE WITH DIGITAL HIGH-RACK SYSTEMS

Our large warehouse, operated in cooperation with an international logistics partner, combines state-of-the-art high-rack systems with fully digitised processes. The delivery process is initiated immediately upon order placement.

STATE-OF-THE-ART 900 M² STORAGE FACILITY

Our new storage facility provides the highest level of flexibility. Across 900 m², we keep our product portfolio securely and optimally stocked for you. Short lead times and maximum availability make us a reliable partner in your supply chain.

OWN FLEET PLUS FREIGHT FORWARDING PARTNERS

Punctuality is our promise. With our own fleet and experienced logistics partners, we ensure that your deliveries are made on time and with maximum flexibility.

EXPRESS AND RAPID DELIVERY SERVICE

And when every minute counts, our express vehicles set off immediately to you. They bring your goods directly to where they're needed – quickly, precisely and reliably.
